

University of the Philippines Los Baños  
College of Forestry and Natural Resources

# OCREL

## ABOUT US

---

The Office of the Coordinator for Research, Extension, and Linkages assists the Dean in coordinating research and extension activities of the various units of the College. The office also assists in maintaining strong linkages with other agencies concerned with forestry and natural resources research, including funding agencies.

## VISION

---

Facilitate coordination and integration of CFNR activities in research, extension, and linkages to promote synergism among the different units.

Senior Administrative Assistant II

## OUR CORE FUNCTIONS

Advise and assist the dean in the following matters:

- development of a viable integrated research and extension program consistent with the College's vision and mission,
- creating and implementing a strategy for promoting the speedy adoption and utilization of information and technologies from research and policy studies of the College, and
- designing and implementing a monitoring and evaluation scheme to ensure the timely delivery or completion of research and extension programs for the College.

Generate a high level of awareness and understanding of programs and activities among college and university constituents and the general public.
